

Project Quotation — StoneOven Multi-Outlet System

Full-stack multi-tenant platform · CRM · Automation engine · Role-based dashboards

A — CUSTOMER-FACING WEB APPLICATION (PUBLIC APP · NEXT.JS) Rs. 29,000

#	DELIVERABLE	WHAT YOU'RE GETTING	AMOUNT
1	Homepage + Outlet Showcase	· 4-outlet landing page — hero banner, brand story, outlet cards with quick links · Dark-themed premium UI — glassmorphism panels, Framer Motion scroll animations · Mobile-first build — optimised for QR scan on Android & iPhone	Rs. 5,000
2	Per-Outlet Pages x4 outlets	· Separate dynamic page per branch — Boisar, Palghar, Vasai, Virar · Outlet identity, timings, about section — each managed independently via CMS · Location-aware routing — customer always lands on correct outlet after QR scan	Rs. 10,000
3	Google Maps + Social Links x4 outlets	· Embedded Google Maps per outlet — location pin, Get Directions CTA · Instagram, Facebook, WhatsApp links — styled social section per outlet	Rs. 4,000
4	Menu x4 outlets	· Static PDF menu per outlet — clean, branded, scannable via QR · Veg/Non-Veg categorised layout with item names and prices · Separate PDF per outlet — each with its own pricing	Rs. 2,000
5	QR Code Visit Tracking	· Customer scans QR — footfall recorded in background, no login required · Device fingerprinting — same customer recognised across visits via device ID · Smart deduplication — duplicate scan within 1 hr counts as 1 visit only	Rs. 4,000
6	Feedback + Review Engine x4 outlets	· First-time visitor — full feedback form with demographics (age, gender, source) · Repeat visitor — quick star rating only, no form fatigue for returning customers · Post-review: text copied to clipboard + Google Review redirect button pops up · Standalone Write a Review page per outlet with same clipboard + redirect flow	Rs. 4,000
Section A — Subtotal			Rs. 29,000

B — MANAGEMENT CMS / DASHBOARDS (INTERNAL APP · NEXT.JS)

Rs. 33,000

#	DELIVERABLE	WHAT YOU'RE GETTING	AMOUNT
7	Franchisee Dashboards x4 outlets	· 4 separate login accounts — one per outlet (Boisar, Palghar, Vasai, Virar) · Each franchisee sees only their outlet data — customers, reviews, visits, footfall · Customer directory — full visit history, birthday and anniversary fields tracked · Zero cross-outlet data bleed — database-level isolation between all branches	Rs. 20,000
8	Owner Dashboard	· All 4 outlets in one view — unified analytics, footfall, revenue splits, comparison · Recharts graphs — review trends, visit heatmaps, sentiment overview, customer growth · Menu management — add/edit items, update per-outlet pricing, upload images via CMS · WhatsApp + Email automation panel — set triggers, edit templates, view delivery logs	Rs. 10,000
9	Login System — RBAC Auth	· Supabase JWT-based secure login — session management, auto token refresh · Role-based access control — Owner sees all outlets, Franchisee sees only their outlet · Login page with ID + password — credentials delivered at final handover	Rs. 3,000
Section B — Subtotal			Rs. 33,000

C — CENTRALIZED REST API BACKEND (NODE.JS + EXPRESS + TYPESCRIPT)

Rs. 19,500

#	DELIVERABLE	WHAT YOU'RE GETTING	AMOUNT
10	System Architecture + DB Design	· PostgreSQL schema — 7 entities: Outlets, Customers, Reviews, Visits, Menu, Staff, Automation Logs · Prisma ORM — relational modeling, type-safe queries, database migrations · Multi-tenant isolation — each outlet's data separated at database schema level	Rs. 6,500
11	Backend API Development	· Stateless REST APIs — public routes for customer app, protected routes for CMS · Business logic — visit deduplication engine, device fingerprinting, customer mapping · Sentiment analysis — every review text scored positive/negative and stored per record · Supabase Auth guards on all protected endpoints — unauthorized access blocked	Rs. 10,000

#	DELIVERABLE	WHAT YOU'RE GETTING	AMOUNT
12	Third-Party Integrations	- Supabase — PostgreSQL database hosting + JWT authentication layer - Resend API — transactional email delivery for automation messages	Rs. 3,000
Section C — Subtotal			Rs. 19,500

D — AUTOMATION ENGINE + INFRASTRUCTURERs. 17,000

#	DELIVERABLE	WHAT YOU'RE GETTING	AMOUNT
13	Cloudflare Workers + Automation Edge	- Daily edge cron jobs — birthday and anniversary auto-messages to customers - Smart re-engagement trigger — customers inactive 30+ days get automated outreach - WhatsApp + Email delivery via Meta API and Resend — every message logged (sent/failed) - Edge CDN layer — fast load times, DDoS protection, performance routing across outlets	Rs. 5,000
14	Domain + Hosting + SSL	- stoneoven.in — 1 year domain registration via Hostinger - SSL certificate — HTTPS secured, browser trust indicators active on all pages - Full DNS configuration — domain pointing, subdomain setup, MX records	Rs. 6,000
15	Testing + Deployment + DevOps	- Frontend deployment — Netlify / Hostinger (Customer App + CMS, auto-deploy on update) - Backend deployment — Render Starter (Node + Express, 24x7 live instance) - End-to-end QA across all 4 outlets — mobile, desktop, cross-browser testing - Go-live support — domain connection, final QA walkthrough with team	Rs. 6,000
Section D — Subtotal			Rs. 17,000

E — COMPLIMENTARY ADD-ONSFree

#	DELIVERABLE	WHAT YOU'RE GETTING	AMOUNT
16	QR Board Design	- Custom-designed QR board artwork per outlet — print-ready format - Branded with StoneOven identity — outlet name, logo, QR code placement	Free
17	Loading Animation	- Custom branded loading screen animation for the customer-facing app - Smooth entry experience — plays on first load and QR scan landing	Free
Section E — Subtotal			Free

Investment Summary

A	Customer-Facing Web Application	6 deliverables	Rs. 29,000
B	Management CMS / Dashboards	3 deliverables	Rs. 33,000
C	Centralized REST API Backend	3 deliverables	Rs. 19,500
D	Automation Engine + Infrastructure	3 deliverables	Rs. 17,000
E	Complimentary Add-ons	2 deliverables	Free
Total Investment			Rs. 98,500

Technology Stack

React 19 · Next.js App Router · Node.js · Express.js · TypeScript · PostgreSQL · Prisma ORM · Supabase Auth · Cloudinary CDN · Framer Motion · Recharts · Cloudflare Workers · Netlify / Hostinger · Render

Database Entities — 7 Tables

Outlets · Customers · Reviews · Customer Visits · Menu Categories & Items · Staff & Roles · Automation Logs

Payment Schedule

50% Rs. 49,250 Advance Before work begins	25% Rs. 24,625 On Staging Preview delivery	25% Rs. 24,625 On Delivery Final handover
---	--	---

Payment via UPI / Bank Transfer · Signed agreement + 50% advance required before work begins

Monthly Running Costs — Post Launch

Client's Responsibility

Ongoing operational costs to keep the system live after launch. Not included in the one-time development fee.

Option A Starter		Option B With WhatsApp Active		Option C Future Scale (1yr+)	
Rs. ~680 / mo		Rs. ~1,880 / mo		Rs. ~6,700 / mo	
Domain (yearly avg)	Rs. 80	Domain (yearly avg)	Rs. 80	Domain + services	Rs. 100
Backend — Render Starter	Rs. 600	Backend — Render Starter	Rs. 600	Backend — Render Pro	Rs. 1,500
Frontend — Netlify/Hostinger	Free	Frontend — Netlify/Hostinger	Free	Frontend — Netlify/Hostinger	Free
Database — Supabase	Free	Database — Supabase	Free	Database — Supabase Pro	Rs. 2,100
Images — Cloudinary	Free	Images — Cloudinary	Free	Images — Cloudinary	Free
Cron — Cloudflare Workers	Free	Cron — Cloudflare Workers	Free	Cron — Cloudflare Workers	Free
Email — Resend (3k/mo)	Free	Email — Resend	Free	Email — Resend	Free
WhatsApp API	—	WhatsApp ~1,500 msgs/mo	Rs. 1,200	WhatsApp (high volume)	Rs. 3,000+
Recommended at launch. All free tiers in use.		Once automation is active and messages are going out.		When business scales and data exceeds 500 MB.	

Note: WhatsApp API cost is variable — approx Rs. 0.80 per message via Meta Business API. Cost scales with volume.
Starter plan recommended at launch. Upgrade to Option B or C only when customer base and automation volume grows.

3-Month Free Maintenance (from project launch date)

INCLUDED	NOT INCLUDED / CHARGEABLE
✓ Minor text & content updates	— New pages or additional sections
✓ Bug fixes from our development	— Design or theme overhaul
✓ Browser & mobile compatibility fixes	— New features (booking, payments etc.)
✓ WhatsApp / contact form checks	— SEO / speed optimisation
✓ Basic uptime monitoring	— Content writing or copywriting
✓ Max 2-3 requests/month 48-72hr response	— Requests via email only — not WhatsApp

Post-Free Maintenance Plans

* Minimum 1-year contract required

Basic Minor updates, uptime check, email support Rs. 1,500 / mo	Standard 2-3 changes/month + WhatsApp support Rs. 3,000 / mo	Premium Priority fixes, dedicated support & bug resolution Rs. 5,000 / mo
--	---	--

Important Notes

- 1 Quote valid for 15 days from issue date — valid until 18th May, 2026.
- 2 Signed agreement + 50% advance required before work begins.
- 3 Domain renewal after Year 1 is client's responsibility.
- 4 All maintenance requests via email only — not WhatsApp.
- 5 CMS login credentials (owner + 4 franchisee accounts) delivered at final handover.
- 6 WhatsApp automation requires active Meta Business API account — setup assisted by UniCord.
